Products closer to the left of the table are designed to be easy to learn and use, for owner managers with limited accounting experience.

Products closer to right of the table offer customers more depth and flexibility, in a given area, than those on the left. They provide a clear upgrade path for increased operational and management needs.

*Additional purchase required

** Additional purchase of Sage Additions required. These are products developed by the Sage Developer Community (not Sage) that integrate with some Sage products.

***Quick indicates there is a dedicated entry form to simplify the data entry process for either cash or till takings. These forms are designed to simplify the data entry process for owner managers who are unfamiliar with accounts software. These activities are completed directly into the bank accounts in all other products.
